## CAREER OBJECTIVE

Aspiring **Flutter Developer** seeking an entry-level opportunity to build user-friendly and efficient cross-platform mobile applications. Skilled in **Dart, Flutter, SQLite, SharedPreferences, Provider, Firebase**, and **REST API** concepts, with hands-on experience developing academic projects. Eager to apply problem-solving skills, contribute to professional software projects, and grow as a skilled mobile application developer.

## TECHNICAL SKILLS

|                 |                                                                 |
|-----------------|-----------------------------------------------------------------|
| Programming     | Python, Java, JavaScript, C                                     |
| Web Development | HTML, CSS, JavaScript                                           |
| App Development | Dart, Flutter, SharedPreferences, Firebase, REST APIs, Provider |
| Database        | SQLite                                                          |
| Version Control | Git, GitHub                                                     |
| Tools           | Visual Studio Code, Android Studio                              |

## PROJECTS

### HireHub - Job Portal Application (Ongoing) Flutter (Dart) | Firebase

- Built a cross-platform job portal application that connects job seekers with employers through a simple and intuitive interface.
- Designed separate Job Seeker and Employer dashboards with secure authentication and personalized features.
- Implemented job search, advanced filtering, job posting, application tracking, and profile management functionalities.
- Focused on responsive UI design and smooth user experience to simplify the recruitment process.
- GitHub: [github.com/yashgoswami3251-wq](https://github.com/yashgoswami3251-wq)

### SOAE Club Management System HTML | CSS | JavaScript | PHP | MySQL

- Developed a web-based platform to streamline the management of college clubs, events, and student activities.
- Implemented role-based authentication for Admin and Faculty with secure access control.
- Enabled faculty coordinators to manage clubs, organize events, and monitor student participation efficiently.
- Created a centralized system that improves communication, event management, and administrative workflow.
